## Section 1: Summary of Major Events

### Contractor and Policy Update

On April 6, 2020, Registry Services, LLC announced that GoDaddy, Inc. (NYSE: GDDY), entered into a definitive agreement to acquire Neustar's domain name registry business, including Registry Services, LLC. The proposed transaction involves no assignment of the usTLD Contract and Registry Services, LLC will continue to serve as the contractor for the usTLD Contract as it does currently. Additionally, in keeping with contractual obligations under Contract No. 1331L519C1330044, for management of the .us country code top level domain, Registry Services, LLC will continue not to serve as a registrar in the second-level usTLD space unless otherwise noted in its Statement of Work.

The usTLD Stakeholder Council Security Sub-Committee also held its third meeting on April 14, 2020. As a result of the meeting, the committee is proceeding with two tracks of work as follows:

1. Review, and if necessary update, current usTLD Policies in the context of Domain Abuse. This includes, but is not necessarily limited to, the Acceptable Use Policy.
2. Prepare a statement of support for the .US Registry Based Privacy Service Plan on the basis of its security implications.

### Locality Update

The usTLD Locality space is monitored by Registry Services to ensure adherence to usTLD policies and procedures. We now have 12,192 total usTLD Locality names. Of those, Registry Services manages 8,920 as the Delegated Manager, and the remaining 3,272 are covered by external Delegated Manager Agreements. Registry Services continues to work through a migration plan for the former Texas Regional Hostmaster delegations to ensure policies, services and domain names have no degradation during the migrations.

There were no Delegated Manager agreements executed, and there were no delegations or Delegated Manager agreements rescinded during the month of April 2020.

### Technical and Operational Update

There were no operational changes during April 2020.

### Marketing Update

April marketing efforts resumed with updated messaging and strategy to better support our community of small business owners. Digital assets for the Online Toolkit were promoted,

pointing users to valuable assets such as "How to Master Lead Generation," an SEO checklist and Social Media Survival guide. There were a total of 140 pdfs downloaded throughout the month. In addition to looking for ways to support businesses, there was a concentrated effort to help those businesses looking to come online, launch their websites. A comprehensive targeting strategy was put in place to reach bottom-of-the-funnel users and encourage their online journey through content and community engagement across social media channels.

New content published to the website in April includes:

- **How to Blog Like a Boss: Part II - Tips on Finding Your Own Voice:** This is part two of a series launched to promote the use of .US domains for personal blog websites. It provides actionable tips and advice for first-time bloggers.
- **Using Your Small Business Website Amid Times of Crisis:** This article focuses on how businesses can use their websites to stay connected to customers and important actions they should take to pivot their business virtually.
- **Connect, Learn and Stay Secure Online - Resources for the Entire Community:** This is a guest post, written by the usTLD Stakeholder Chair, Dustin Loup. The article includes resources and links to educational, informative and valuable websites and organizations that are offering services amid the pandemic. Dustin performed in-depth research into each category to ensure only high-quality resources were included for each category (distance learning, online security, working from home tips and internet access).

### Other Updates

New registrations in April 2020 were 8.79% lower than April 2019. Names under management in April 2020 were 16.62% lower than April 2019. The renewal rate in February 2020 (most current data available due to 45 day grace period) was higher year over year at 68.78% vs. 62.27% in January 2019.
